STYLING GUIDE

---

## FAMILY

---

“What should we wear?” is the most common question I am asked so here’s a few tips to make your session as stress free as possible!

The most important thing above all is that you are comfortable. If you are not comfortable in your outfit choices this will show through in your images as you will be unable to express your true self and relax and have fun! I suggest always trying on a few outfits prior to the session and have a little dance party with your kids! This will determine whether your clothing choice feels right, fits right and it has enough movement!

“Please help me choose the right colors!”

It’s ALWAYS best to choose one color palette for the whole family and stick to it! If one person wants to wear a pattern, for example a floral dress then it is best that everyone else picks a color to wear from that pattern. Colour palette examples include but not limited to: Autumn, pastels, neutrals, earthy. See some examples below.

“What should I avoid?”

Excellent question! Try and avoid large logo’s (small ones can be edited out if requested).

More than one person wearing a pattern.

Everyone matching in the exact same shirt and pants, for example white t-shirt with blue denim jeans!

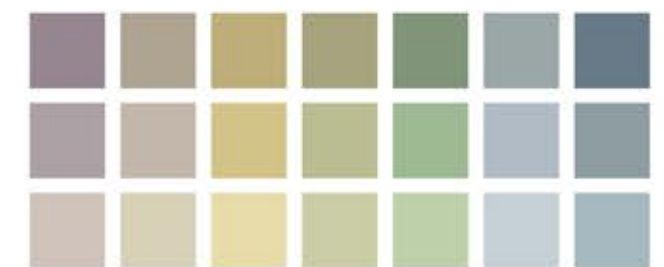

Choose cream over white and dark blue or grey over black.

---

### EARTHY

### NEUTRAL

# Coordinate clothing with background.

Look for outfits that match the tones of the images you are most drawn to.

Wanting to photography in the forest? Earthy tones would work best.

Love the golden sunset at the beach? Pastels or neutrals will look amazing with this type of backdrop!

## Having a studio session?

We have a range of backdrops including dark brown, Grey, cream, black and sage green as well as a lifestyle set up with a dark green velvet couch. Let me know if you'd like your session in the studio and we can discuss the look you'd like to achieve prior! There's also a range of dresses in the client wardrobe you are welcome to use!

## Would you like to add on hair and makeup?

Please book this in with us prior to your session.

We have a beauty station in the studio & three talented Hair and Make up artists who can make you look & feel amazing
